

# Davide BUFFELLI

## PERSONAL DATA

EMAIL: [davide.buffelli@phd.unipd.it](mailto:davide.buffelli@phd.unipd.it)

WEBSITE: <https://davidebuffelli.github.io>

LINKEDIN: [linkedin.com/in/davide-buffelli](https://www.linkedin.com/in/davide-buffelli)

## EDUCATION

- MAR. 2023 Ph.D in INFORMATION ENGINEERING,  
**Università degli studi di Padova**, Padova (IT).  
Thesis: "Improving the Effectiveness of Graph Neural Networks in Practical Scenarios"  
Supervisor: Prof. Fabio VANDIN.
- FEB. 2019 Master's Degree in COMPUTER SCIENCE ENGINEERING,  
with final grade 110/110 with honors, **Università degli studi di Padova**, Padova (IT).  
Thesis: "A Deep Learning Model for Personalised Human Activity Recognition."  
Advisor: Prof. Fabio VANDIN.
- JULY 2016 Bachelor's Degree in INFORMATION TECHNOLOGY ENGINEERING,  
with full marks, **Università degli studi di Padova**, Padova (IT).  
Thesis: "Algorithms for the determination of node centralities in a graph."  
Advisor: Prof. Andrea Alberto PIETRACAPRINA.

## WORK EXPERIENCE

- MAY 2023-PRESENT Senior Deep Learning Researcher at **MEDIATEK RESEARCH**, Cambridge/London (UK)  
Working in the AI research arm of MediaTek on both applied and fundamental research projects.
- SEPT. 2022-DEC. 2022 Research Scientist Intern at **META AI**, London (UK)  
Worked on using multi-modal data to alleviate the cold-start problem in recommendation systems. A technical publication regarding part of the work done is available [online](#).
- AUG. 2022-AUG. 2022 Visiting Researcher at **HELMHOLTZ MUNICH**, Munich (DE)  
Supervisor: Dr. Bastian Rieck.  
As a recipient of the Helmholtz Visiting Research Grant, awarded by the Helmholtz Information and Data Science Academy, I have performed research at the intersection of Graph Neural Networks and Topological Data Analysis.
- APR. 2022-JUL. 2022 Visiting Researcher at **UNIVERSITY OF CAMBRIDGE**, Cambridge (UK)  
Supervisor: Professor Pietro Liò.  
I continued my research on Graph Neural Networks. In more detail I have worked on the problem of size-generalization, which led to a NeurIPS 2022 accepted paper.
- JAN. 2021-JUL. 2021 Research Intern at **SAMSUNG AI RESEARCH**, Cambridge (UK)  
Supervisors: Dr. Efthymia Tsamoura.  
I have worked on neurosymbolic approaches combining Deep Learning and Logical Reasoning. In more detail, the research done at Samsung focused on the development of a logic-based loss function for deep learning models with the goal of injecting *commonsense knowledge* into scene graph generation models. This work has led to a paper (accepted at AAAI 2023), and a patent (pending).
- APR. 2019-SEPT. 2019 Research Fellow at **UNIVERSITY OF PADOVA**, Padova (IT)  
Project: "Machine Learning for Temporal Data"  
Supervisor: Professor Fabio Vandin.  
The research project revolved around the development of novel Deep Learning frameworks for multimodal times series. The outcome of this project has led to a publication on the IEEE Sensors journal.
- JAN. 2019-FEB. 2019 Data Scientist, Machine Learning Engineer at **MACHINE LEARNING REPLY**, Milan (IT)  
During my time at Machine Learning Reply I had the chance to work for international clients on machine learning related projects, including chatbots, and automatic systems for the analysis of documents and invoices.
- JUL. 2018-DEC. 2018 Machine Learning Intern at **PHILIPS DIGITAL AND COMPUTATIONAL PATHOLOGY**, Belfast (UK)  
I worked in the team responsible for the development of algorithms that aid pathologists in the analysis of medical slides (inside the TissueMark application). This implied the creation, training and validation of Deep Learning models and the engineering, processing and analysis of data. In more details I have contributed to the development of the algorithm for the identification of the appropriate tumour regions for macrodissection of lung tissue slides.

## PUBLICATIONS

---

- **Exact, Tractable Gauss-Newton Optimization in Deep Reversible Architectures Reveal Poor Generalization**  
Davide Buffelli\*, Jamie McGowan\*, Wangkun Xu, Alexandru Cioba, Da-shan Shiu, Guillaume Hennequin, Alberto Bernacchia, *Thirty-Eighth Annual Conference on Neural Information Processing Systems (NeurIPS)*, 2024.
- **Deep Equilibrium Algorithmic Reasoning**  
Dobrik Georgiev, JJ Wilson, Davide Buffelli, Pietro Liò, *Thirty-Eighth Annual Conference on Neural Information Processing Systems (NeurIPS)*, 2024.
- **CliquePH: Higher-Order Information for Graph Neural Networks through Persistent Homology on Clique Graphs**  
Davide Buffelli\*, Farzin Soleymani\*, Bastian Rieck, *Preprint*, 2024.

## AWARDS & GRANTS

---

- **Helmholtz Visiting Researcher Grant** - 08/2022  
Grant awarded by the Helmholtz Information and Data Science Academy (HIDA), as part of the Helmholtz Association, to support a research stay at a Helmholtz centre.
- **Fondazione Luciano Iglesias Scholarship** - 07/08/2020  
Award given to the 10 best M.Sc. graduates in Computer Engineering at the University of Padova in 2019.
- **Full PhD Scholarship from the Department of Information Engineering (University of Padova)** - 2019-2022.
- **ERASMUS+ Traineeship Grant** - July 2018-Dec. 2018.

## PATENTS

---

- **Method and System for Scene Graph Generation**  
Davide Buffelli, Efthymia Tsamoura, 2022 (*filed; patent pending*).

## TALKS/PRESENTATIONS/POSTERS

---

- **Invited Talk** - “*The Problem of Size-Generalization in Graph Neural Networks*”  
Presented at the Artificial Intelligence Research Group Talks (University of Cambridge) - 04/07/2022. [\[Link\]](#) [\[Video\]](#)
- **Invited Talk** - “*Word Embeddings & Graph Neural Networks for Automatic Reasoning over Knowledge Graphs*”  
Presented at the Word Embedding Reading Group (University of Padova) - 25/05/2020. [\[Video\]](#) [\[Slides\]](#)
- **Poster (Refereed Workshop)** - “*Are Graph Convolutional Networks Fully Exploiting Graph Structure?*”  
Presented at the [ELLIS Workshop on Geometric and Relational Deep Learning](#) - 24/02/2020. [\[Video\]](#) [\[Slides\]](#)

## STUDENT SUPERVISION

---

- **Master’s Thesis Supervision:** - Matteo Terranova (“Study of Regularization Techniques for Semi-Supervised Learning on Graphs with Graph Convolutional Networks”; co-supervised with Prof. Fabio Vandin, 2020).

## SERVICE

---

**Reviewer** CONFERENCES: *RECOMB*, *ISMB*, *KDD*, *ICDM*, *NeurIPS Workshop on Meta-Learning (Meta-Learn)*, *TheWebConf*, *NeurIPS I Can’t Believe It’s Not Better! (ICBINB) Workshop*.  
JOURNALS: *ACM Transactions on Information Systems*, *IEEE Sensors Journal*.

## COMPUTER SKILLS

---

**Proficient:** PYTHON

I worked extensively, both in an academic and in a professional environment, with the main Machine Learning and Deep Learning libraries such as TensorFlow, PyTorch, Keras, Pandas, scikit-learn.

## LANGUAGES

---

ITALIAN: Mother tongue.  
ENGLISH: Fluent - Bilingual Proficiency.
